

ENERGY COST MANAGEMENT LTD

Delivering Solutions to minimise cost

The Client Ribby Hall Village

Ribby Hall Village is located in the heart of the Fylde coast area of Lancashire and has become one of the leading North West holiday centres. The business has grown rapidly over recent times and in addition to quality Hotel and Self Catering accommodation, it now incorporates a wide range of activities including horse riding, swimming pools, gymnasiums and an excellent range of restaurants and evening entertainment.

The village, which is set in over 100 acres of landscaped grounds, has grown rapidly over recent times and as a consequence there has been a genuine need to address escalating energy and utility costs.

The Problem Ribby Hall's continuing success and expansion has brought new challenges in both managing the utility accounts and ensuring energy efficiency.

The combined effect of recent significant increases in energy costs, and the additional climate change levy introduced by the government, places great emphasis on the need to improve energy performance.

Understanding the way energy can be used effectively is the key. ECM's analysts and engineers, supported by the very latest software, are able to accurately identify cost saving solutions and are focussed on measurable and auditable results.

The Solution Integrated Energy Management

ECM specialist engineers provide a range of services to meet specific requirements ranging from:

- Energy Audits.
- Bill Validation.
- Energy Procurement.
- Energy Management
- Energy Performance Reportage

ECM can effect a direct improvement of profits.
